FACILITATING ACTION LEARNING TEAMS

MINING AND METS SECTOR

A JOINT PROGRAMME OF

SUPPORTED BY

THIS FACILITATING ACTION LEARNING TEAMS PROGRAMME COMBINES ACTION ON REAL-LIFE WORK-BASED ISSUES WITH REAL LEARNING.

ABOUT THIS PROGRAMME

The Facilitating Action Learning Teams Programme has been developed by Global Centre for Work-Applied Learning (GCWAL).

This programme uses the Action Learning process to focus on real work problems and opportunities to produce individual and team learning which has significance for work.

The Action Learning process encourages greater collaboration between the manager and their team while problem-solving and finding solutions and generates a tangible return on investment through the development and implementation of work-based projects.

It also encourages innovation and creativity through the sharing of ideas by the manager and team member and enables the manager and team members to learn and reflect on their experiences, which will be useful in subsequent projects.

This programme is delivered online with in-built facilitation and guidance and participants remain AT WORK and apply the learning to a REAL ACTION LEARNING PROJECT. This enables the learning to be directly INTEGRATED into the participant's work situation and leads to one of two levels of CERTIFICATION.

WHO SHOULD ATTEND
